

Considering a PhD in geological sciences, geography or climatology?

The University of Delaware **College of Earth, Ocean and Environment (CEOE)** offers the opportunity to earn these degrees while studying and researching with faculty exploring a diverse array of questions. No matter whether your interest is in earth or atmospheric science or in human-environment interactions, there are experts mentoring students like you in their field, preparing tomorrow's environmental leaders.

BREAKING BARRIERS GRADUATE FELLOWSHIPS

CEOE offers two Breaking Barriers fellowships for U.S. students from historically underrepresented and excluded populations seeking a PhD in geological sciences, geography or climatology.

***Supported by UD's Graduate College,
the funding will provide full tuition and a
\$30,000 stipend for a minimum of two years.***

Interested applicants should fill out the online form using the link below. Qualified students will have their application fee waived.
